

The St. Mark's Cathedral Vaccination Drive 2 in collaboration with Bangalore Baptist Hospital was successfully completed on Sunday, 20th of June 2021. This was a continuation of the vaccination drive initiative taken up by our Presbyter, members of the Pastorate Committee, Volunteers, and Office Staff. This was possibly only because of their hardwork and dedication.

The planning and implementation team comprising of Mr. John Wesley Amose, Mrs. Anjana Samuel, Mr. Jebakumar, Mr. Ajith Samuel, Mr. Martin Henry, Mr. Suren Chander, and Mr. Arun Kumar, executed the program efficiently and the whole process was smooth.

It was by God's grace and dedication of our Volunteers and the medical staff, that we were able to vaccinate 120 people. People eligible for either the first dose or second dose of the Covishield vaccine, were administered. People in the age group of 18+ were administered the vaccine and benefitted from this initiative.

This initiative was primarily for our St. Marks members and a large number of them were benefitted. Based on the availability of the vaccines, we were also able to administer to many non-St. Marks members and non-Christians as well who had registered with us.

At this juncture, we specifically thank our Presbyter Rev. Vincent Vinod Kumar, our PC members and our volunteers for their support, coordination, and hard work in making this initiative a reality. A special thank you to the Baptist Hospital team led by Mr. Davidson for their dedication in making this drive a success.
